I have an `array` of `objects` ,

```
var out = [{
    "type": "1",
    "from": "13052033555",
    "to": "4444444",
    "amount": "40000",
    "date": 1461575799,
    "status": "1"
  }, {
    "type": "2",
    "from": "13052033555",
    "to": "1111111",
    "amount": "30000",
    "date": 1461575884,
    "status": "1"
  }...
];
```

I get only it's values without `keys`

Now i used this function to get the values from array like this, I pass array then it returns only values without keys

```
function foo(a) {
  var values = [];
  for (var i = 0; i < a.length; i++) {
    var obj = a[i];
    var arr = Object.keys(obj).map(function(k) {
      return obj[k]
    });
    values.push("[" + arr + "],");
  }
  return values.join('');
}
```

By using our site, you acknowledge that you have read and understand our Cookie Policy, Privacy Policy, and our Terms of Service.

```
[ ["1","13052033555","4444444","40000",1461575799,"1"],
  ["2","13052033555","1111111","30000",1461575884,"1"],
    ....]
```

Question: How can i change my foo function to lodash?

javascript arrays lodash

`out.map(obj => _.values(obj))` – gcampbell Jul 9 '16 at 16:58

Other solution `out.map((e)=>Object.keys(e).map((key)=>e[key]))` – Nenad Vracar Jul 9 '16 at 17:00

Use _.values()

```
var out = [{
    "type": "1",
    "from": "13052033555",
    "to": "4444444",
    "amount": "40000",
    "date": 1461575799,
    "status": "1"
  }, {
    "type": "2",
    "from": "13052033555",
    "to": "1111111",
    "amount": "30000",
    "date": 1461575884,
    "status": "1"
  }
```

By using our site, you acknowledge that you have read and understand our Cookie Policy, Privacy Policy, and our Terms of Service.

```
      out[i] = _.values(out[i]);
    }

console.log(out)

<script src="https://cdn.jsdelivr.net/lodash/4.13.1/lodash.min.js"></script>
```

Run code snippet Hide results Full page

```
  ],
  [
    "2",
    "13052033555",
    "1111111",
    "30000",
    1461575884,
    "1"
  ]
]
```

5

```
out.map(_.values);
```

Or if below ES5: `_.map(out, _.values);`
